Subject: Tomorrow's Conference Call

FYI, I am participating in a Level B exercise tomorrow to fulfill my COR NAR requirements so I will not be on the MB Conference Call. John Gorman has agreed to login in as the leader of the call in my place. Eric Mosher is at the Removal Managers Meeting in Chicago so I'm am not sure if he is going to be on the call either.

Field activities this week include the following: 1 OSC, 1 EPA ERT, 2 SERAS contractors are mobing to St. John today. The J lower unit will continue to be ventilated and the last (hopefully) round of 24-hour Summa canister sampling will occur later this week. I will send an update later this week.

Feel free to call me if you have any questions.

Christopher Jimenez, Deputy Regional Incident Coordinator
